Goddard Schools: One of Nation's Best

Goddard Public Schools serves more than 6,400 students in pre-kindergarten through twelfth grade.

Equipment and facilities are continuously upgraded, keeping our students on the cutting edge of technological advancements giving them an advantage in both collegiate and vocational settings. Goddard Public Schools is a rapidly-growing district. Based upon the number of houses under construction and new subdivisions on the drawing board, we anticipate rapid growth to continue for several years. This growth has led to significant expansion of district facilities in recent years. Ten tennis courts to jointly serve Goddard High School and Eisenhower Middle School.

Residents of Southern Ridge attend the top rated Goddard School District including Earhart Elementary, Challenger Intermediate, Goddard Middle and High Schools.
